

IN THE CLAIMS:

1-12. (Cancelled)

13. (Currently amended) A method of specifically delivering a reagent to a glioblastoma, comprising the step of:

contacting cells of the glioblastoma with an antibody which is conjugated to a reagent, wherein the antibody specifically binds to an extracellular epitope of glycoprotein (transmembrane) nmb (GPNMB) (SEQ ID NO:17), whereby the reagent is delivered to the cell.

14. (Cancelled)

15. (Cancelled)

16. (Original) The method of claim 13 wherein the glioblastoma is multidrug-sensitive.

17. (Cancelled)

18. (Original) The method of claim 13 wherein the reagent is a chemotherapeutic agent.

19. (Original) The method of claim 13 wherein the reagent is a cytotoxin.

20. (Original) The method of claim 13 wherein the reagent is a non-radioactive label.

21. (Original) The method of claim 13 wherein the reagent is a radioactive compound.

22. (Original) The method of claim 13 wherein the glioblastoma is in a human.

23-47. (Cancelled)
